

BEAUTIFUL TENTS

DESIGNED FOR YOUR EVENT

Whether you are planning a wedding, corporate event or private function, a Stretch Tent is the perfect choice.

Also known as a Freeform or Bedouin Tent, our product allows you to design a marquee solution specific to your needs, site and budget. A Stretch Tent is essentially a single piece of waterproof material, stretched tight over free standing poles, allowing you to create eye catching shapes, either stand-alone or as a canopy (attached to another structure or building).

If you are looking for a marquee with wow, that is adaptable to your needs and will ensure your event really stands out, then look no further.

Read on to find out how we can design beautiful tents for every event.

THINGS A STRETCH TENT CAN DO THAT A STANDARD MARQUEE MIGHT NOT

Any location: If we can drive a vehicle in, we can stretch a tent up. Flat, rolling or steep, a Stretch Tent blends easily into a wider range of stunning landscapes and settings.

Time to party and to plan: We have a standard hire period of three days giving you time to set up, pack down and in between, enjoy your event and party til dawn; if that's what your event requires.

Personalized to you: Decorate it, light it, lay it out, set it up to suit. Whether you want to invite 40 or 340 people, a Stretch Tent can be designed to suit your event.

First class look, accessible price: We won't charge separately for extra labour, roof or wall liners, set up or pull down; our price is all inclusive. And because our tents are wow, extra décor is often not required.

Guaranteed to be NZ made, compliant and strong: Yep, all our tents are made in NZ, 100% waterproof, fire retardant and able to withstand 70km winds. Better than a pop up by far!

CHOOSING THE RIGHT STRETCH TENT FOR YOU

Have a site in mind and need a freestanding structure? Consider a **Freestanding Stretch Tent**. These tents can be opened to let the view in or the sides can be pulled down to help control the elements (wind, rain).

A **Freestanding Stretch Tent** can be erected on almost any site – if we can drive in, we can get a Stretch Tent up.

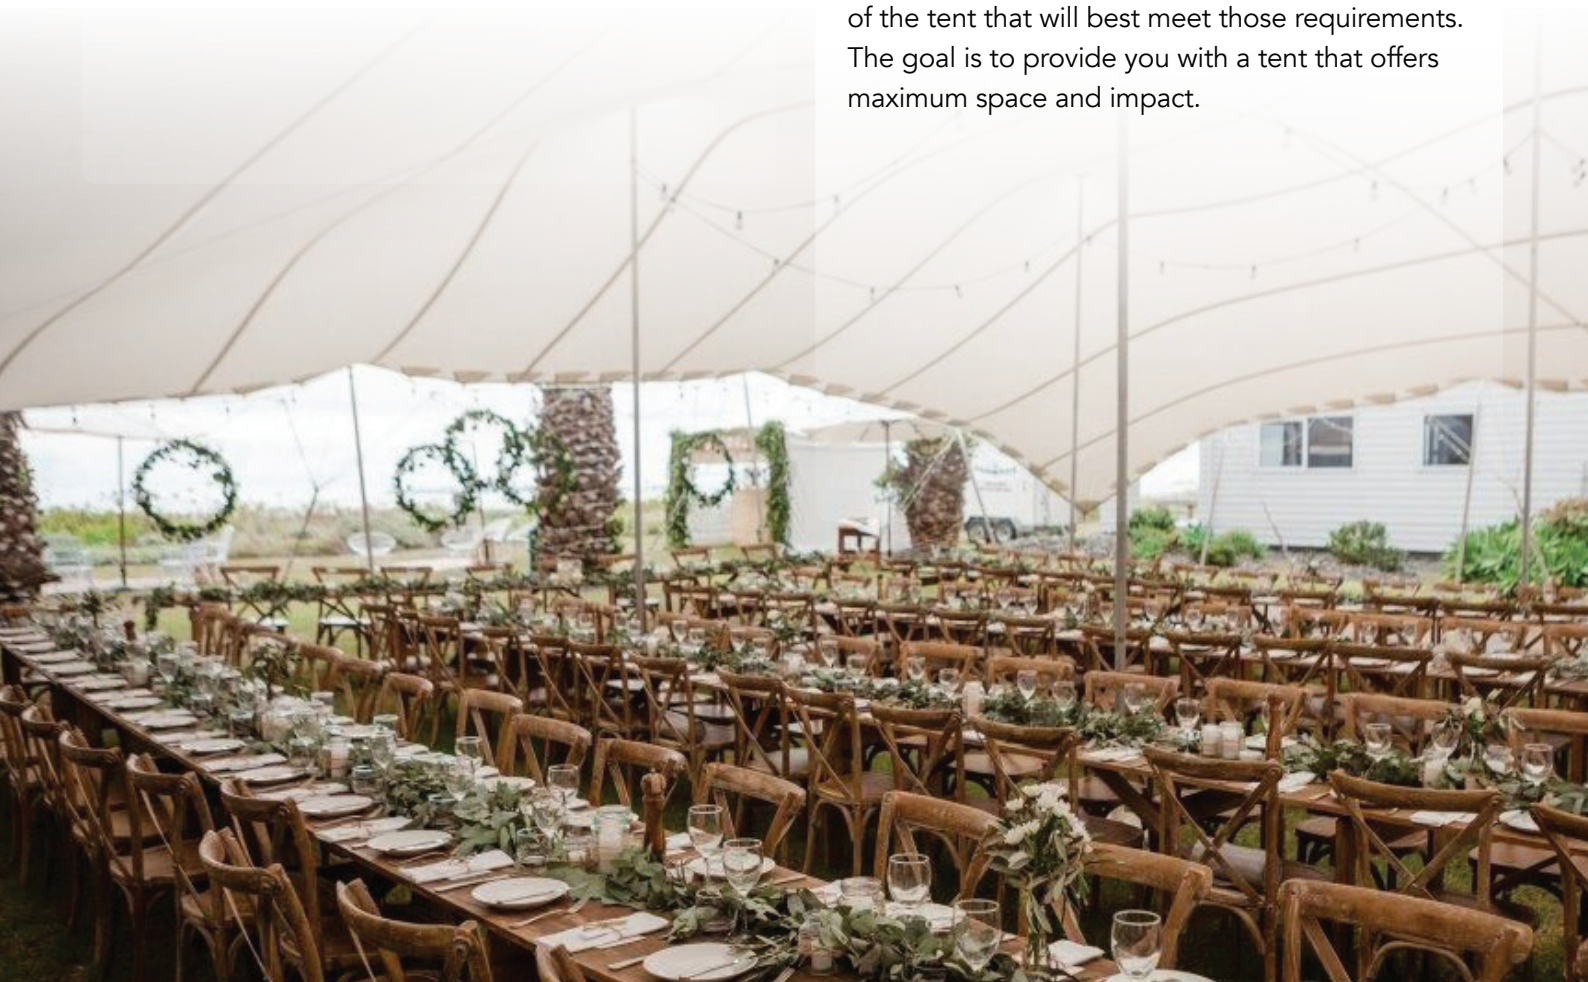

Or if you're hosting your event in a building and would like a little extra space, consider a **Canopy Stretch Tent**. These systems allow tents to be erected off almost any solid structure providing a space for a dance floor, catering or just extra room for mingling.

WHAT SIZE SUITS ME?

There are a number of factors to consider when choosing the best tent size for your event;

- The number of guests;
- The format e.g. will people be mostly standing, seated at tables or in rows of seats?
- Furniture ideas e.g. lounge style, trestles or round tables;
- Space requirements e.g. Dance-floor band or DJ, space for catering;
- Special requirements of the site e.g. prevailing wind, where the sun hits, entrances and exits.

Once you have a reasonable idea of the design of your event, we'll work with you to scope the size of the tent that will best meet those requirements. The goal is to provide you with a tent that offers maximum space and impact.

EASY TO USE EASY TO BOOK

1. Let's talk about what you need and when you need it.

2. Site visit: Where possible, we'd prefer to pop out to site. This helps both you and us to understand access, rigging requirements, set up and pull down dates, as well as any additional needs.

3. Quote: We'll send you a quote and once accepted, a 25% deposit will be required to confirm your booking.

4. We'll be there: We recognise that events take a lot of planning and we aim to be a seamless supplier. You can guarantee if we've confirmed your booking, we'll have your tent at your event on the agreed date. We'll touch base a week or so out to help ease your nerves and confirm all the details.

5. Job done: On the agreed date, our crew will arrive to rig your Stretch Tent. We'll work with you to assess the weather, forecasts and make modifications as required. Once the event is over and the tent is cleared, we'll pop back to take it down. Job done.

6. Peace of mind: We stand by our workmanship so we have a 24 hour call out service in case of emergency.

A FLEXIBLE STRUCTURE

Our systems allow us to design tent structures that will suit almost any site or scenario.

Our tents don't generally have sides – we simply pull down the edges of the tent that are open to the weather to provide a more enclosed feel. We call this "sides down". Our tents can be all sides up, four sides down or somewhere in between.

Obviously when we put sides down, space is compromised so we offer another solution – lycra can be attached to the tent edges, allowing an enclosed feel without losing an inch of floor area.

MUCH MORE THAN A MARQUEE

Stretch Tents offers so much more than just a marquee. Talk to us about our furniture and hire items – from hand-crafted trestle tables to on-trend festoon lights, we have items that will add to the grace, form and gorgeousness of your Stretch Tent. Wedding packages available.
